

The Tax And Legal Playbook Game Changing Solutions To Your Small Business Questions

A comprehensive analysis of Donald Trump's legal history reveals his temperament, methods, character, and morality. Unlike all previous presidents who held distinguished positions in government or the military prior to entering office, Donald Trump's political worldview was molded in the courtroom. He sees law not as a system of rules to be obeyed and ethical ideals to be respected, but as a weapon to be used against his adversaries or a hurdle to be sidestepped when it gets in his way. He has weaponized the justice system throughout his career, and he has continued to use these backhanded tactics as Plaintiff in Chief. In this book, distinguished New York attorney James D. Zirin presents Trump's lengthy litigation history as an indication of his character and morality, and his findings are chilling: if you partner with Donald Trump, you will probably wind up litigating with him. If you enroll in his university or buy one of his apartments, chances are you will want your money back. If you are a woman and you get too close to him, you may need to watch your back. If you try to sue him, he's likely to defame you. If you make a deal with him, you had better get it in writing. If you are a lawyer, an architect, or even his dentist, you'd better get paid up front. If you venture an opinion that publicly criticizes him, you may be sued for libel. A window into the president's dark legal history, Plaintiff in Chief is as informative as it is disturbing.

Why the rich don't pay taxes? That has been one of the questions that a lot of people don't fully understand. If the socio-economic class pays taxes, why do the rich escape without paying theirs? Well, this book uncovers the number of ways many of the wealthiest people within the world use to reduce or eliminate their taxes.

First published in 1971, Rules for Radicals is Saul Alinsky's impassioned counsel to young radicals on how to effect constructive social change and know "the difference between being a realistic radical and being a rhetorical one." Written in the midst of radical political developments whose direction Alinsky was one of the first to question, this volume exhibits his style at its best. Like Thomas Paine before him, Alinsky was able to combine, both in his person and his writing, the intensity of political engagement with an absolute insistence on rational political discourse and adherence to the American democratic tradition.

The Tax Rules Have Changed. Your Business Should, Too. The Tax Cut and Jobs Act of 2017 marks the biggest tax reform in more than 30 years. The changes to the tax code are complex (especially for the small-business owner), but you don't have to go it alone. CPA and Attorney Mark J. Kohler delivers a comprehensive analysis of the new tax and legal structure you desperately need to help make the new tax law work for you. In this revised edition of The Tax and Legal Playbook, Kohler reveals clear-cut truths about tax and legal planning and delivers a practical, play-by-play guide that helps you build wealth, save on taxes, and protect your assets. Using real-world case studies, tax-savvy tips, game plans, and discussion points, Kohler coaches you through the complexities of the tax game of the small-business owner. You'll also learn how to: Examine your business needs and pick the

right business entity for you Build your personal and corporate credit in eight steps Implement affordable asset protection strategies Take advantage of underutilized business tax deductions Pick the right health-care, retirement, and estate plans Bring on partners and investors the right way Plan for your future with self-directed retirement funds Reading from cover to cover or refer to each chapter as needed, you will come away wiser and better equipped to make the best decisions for your business, your family, and yourself.

This textbook offers a comprehensive guide to interventional radiology (IR) for medical students, residents, nurse practitioners, physician assistants, and fellows. IR is constantly evolving to meet the growing demands of patient care by applying cutting-edge technology to minimally invasive image-guided procedures. A dynamic specialty, interventional radiology has gained significant traction and interest in recent years, with combined IR/DR residencies rising to meet the increasing demand. This book addresses this growing need for a reference in IR, allowing students to gain a solid foundation to prepare them for their careers. The book is divided into two main sections, with many images and key point boxes throughout that offer high-yield pearls along with the specific How To's necessary for practice. The first section is designed to give readers an introduction to IR, including radiation safety, commonly used devices, patient care, and anatomy. The second portion divides into sections covering major body areas, diseases, conditions, and interventions. These chapters cover procedures including pathophysiology, indications for treatment, as well as alternative treatments before delving into interventional therapy. IR Playbook gives medical students, residents, and trainees a full perspective of interventional radiology.

Like a modern-day Jane Jacobs, Janette Sadik-Khan transformed New York City's streets to make room for pedestrians, bikers, buses, and green spaces. Describing the battles she fought to enact change, *Streetfight* imparts wisdom and practical advice that other cities can follow to make their own streets safer and more vibrant. As New York City's transportation commissioner, Janette Sadik-Khan managed the seemingly impossible and transformed the streets of one of the world's greatest, toughest cities into dynamic spaces safe for pedestrians and bikers. Her approach was dramatic and effective: Simply painting a part of the street to make it into a plaza or bus lane not only made the street safer, but it also lessened congestion and increased foot traffic, which improved the bottom line of businesses. Real-life experience confirmed that if you know how to read the street, you can make it function better by not totally reconstructing it but by reallocating the space that's already there. Breaking the street into its component parts, *Streetfight* demonstrates, with step-by-step visuals, how to rewrite the underlying "source code" of a street, with pointers on how to add protected bike paths, improve crosswalk space, and provide visual cues to reduce speeding. Achieving such a radical overhaul wasn't easy, and *Streetfight* pulls back the curtain on the battles Sadik-Khan won to make her approach work. She includes examples of how this new way to read the streets has already made its way around the world, from pocket parks in Mexico City and Los Angeles to more pedestrian-friendly streets in Auckland and Buenos Aires, and innovative bike-lane designs and plazas in Austin, Indianapolis, and San Francisco. Many are inspired by the changes taking place in New York City and are based on the same techniques. *Streetfight* deconstructs, reassembles, and reinvents the street, inviting readers to see it in

ways they never imagined.

Rev. ed. of: 422 tax deductions for businesses & self employed individuals. 5th ed. c2004.

Strategies for building wealth and avoiding excessive taxation from one of the most original finance thinkers of our time. Top 10 Ways to Avoid Taxes will teach you what the Top 1% know about money and the tools they use to grow, protect and pass that wealth to their heirs tax-free.

Maximize your bottom line with the nation's most trusted small business tax guide J.K. Lasser's Small Business Taxes 2019 is the small business owner's ultimate guide to a money-saving, stress-free tax season. Providing straightforward advice from the nation's most trusted tax expert on small business taxes, this book gives you the answers you need quickly, with clear, concise guidance. Updated to cover changes from the Tax Cuts and Jobs Act and other legislation, this edition also includes an e-supplement covering additional developments from Congress and the IRS to keep you fully up-to-date. A complete listing of all available business deductions and credits helps you identify those you qualify for, and includes critical information on dollar limits, recordkeeping requirements, and how to actually take the write-off—all the way down to the IRS form to use. Organizational and planning strategies help you get through the process quickly and with fewer headaches, and this year's changes to the tax laws are explained in terms of how they affect your filing. Keeping up with the intricacies of tax law and filing is a full-time job—but it's not your full-time job. You have a business to run. This book gives you the guidance you need in the time that you have so you can get taxes out of the way and get back to work. Learn which expenses qualify for deductions—and which ones don't Adopt a more organized recordkeeping system to streamline the filing process Explore small-business-specific strategies for starting or closing a business, running a sideline business, and operating in multiple businesses Decode the various forms and worksheets correctly with step-by-step guidance Audit-proof your return Review obligations for the “other taxes,” including payroll and excise taxes Every year, millions of small business owners overpay their taxes because they lack the time and expertise to make tax-sensitive business decisions throughout the year only to learn that it's too late to act when it comes to tax time. Now you can put your money back where it belongs—in your business. J.K. Lasser's Small Business Taxes 2019 helps you take wise actions during the year and tells you how to file completely and accurately while maximizing your bottom line.

NEW YORK TIMES BEST SELLER • A grand, devastating portrait of three generations of the Sackler family, famed for their philanthropy, whose fortune was built by Valium and whose reputation was destroyed by OxyContin. From the prize-winning and bestselling author of Say Nothing, as featured in the HBO documentary Crime of the Century. The Sackler name adorns the walls of many storied institutions—Harvard, the Metropolitan Museum of Art, Oxford, the Louvre. They are one of the richest families in the world, known for their lavish donations to the arts and the sciences. The source of the family fortune was vague, however, until it emerged that the Sacklers were responsible for making and marketing a blockbuster painkiller that was the catalyst for the opioid crisis. Empire of Pain begins with the story of three doctor brothers, Raymond, Mortimer and the incalculably energetic Arthur, who weathered the poverty of the Great Depression and appalling anti-Semitism. Working at a barbaric mental institution, Arthur saw a

better way and conducted groundbreaking research into drug treatments. He also had a genius for marketing, especially for pharmaceuticals, and bought a small ad firm. Arthur devised the marketing for Valium, and built the first great Sackler fortune. He purchased a drug manufacturer, Purdue Frederick, which would be run by Raymond and Mortimer. The brothers began collecting art, and wives, and grand residences in exotic locales. Their children and grandchildren grew up in luxury. Forty years later, Raymond's son Richard ran the family-owned Purdue. The template Arthur Sackler created to sell Valium—co-opting doctors, influencing the FDA, downplaying the drug's addictiveness—was employed to launch a far more potent product: OxyContin. The drug went on to generate some thirty-five billion dollars in revenue, and to launch a public health crisis in which hundreds of thousands would die. This is the saga of three generations of a single family and the mark they would leave on the world, a tale that moves from the bustling streets of early twentieth-century Brooklyn to the seaside palaces of Greenwich, Connecticut, and Cap d'Antibes to the corridors of power in Washington, D.C. *Empire of Pain* chronicles the multiple investigations of the Sacklers and their company, and the scorched-earth legal tactics that the family has used to evade accountability. The history of the Sackler dynasty is rife with drama—baroque personal lives; bitter disputes over estates; fistfights in boardrooms; glittering art collections; Machiavellian courtroom maneuvers; and the calculated use of money to burnish reputations and crush the less powerful. *Empire of Pain* is a masterpiece of narrative reporting and writing, exhaustively documented and ferociously compelling. It is a portrait of the excesses of America's second Gilded Age, a study of impunity among the super elite and a relentless investigation of the naked greed and indifference to human suffering that built one of the world's great fortunes.

Let's be honest, traditional small firm law practice is not working very well. Too many small firm lawyers struggle to make ends meet, get clients, meet clients' expectations, or they wrestle with mental health issues or substance abuse. Meanwhile, there is a huge gap between those who need legal help and those who can get it. But it doesn't have to be that way. We can build better firms, be more effective with our clients, enjoy better health and a greater sense of fulfillment, and make a bigger impact on our communities. With the client-centric law firm management model in *The Small Firm Roadmap*, you'll see that getting started is easier than you think. The team from Lawyerist.com—Aaron Street, Sam Glover, Stephanie Everett, and Marshall Lichty—will help you gain clarity around your career and firm goals and identify successful strategies for starting, managing, and growing a thriving future-oriented law firm. If you're ready to do great work that supports a great life, this book is for you.

NEW YORK TIMES EDITORS' CHOICE • Big Tobacco meets Silicon Valley in this “deeply reported and illuminating” (The New York Times Book Review) corporate exposé of what happened when two of the most notorious industries collided—and the vaping epidemic was born. “The best business book I’ve read since *Bad Blood*.”—Jonathan Eig, New York Times bestselling author of *Ali: A Life* Howard Willard lusted after Juul. As the CEO of tobacco giant Philip Morris's parent company and a veteran of the industry's long fight to avoid being regulated out of existence, he grew obsessed with a prize he believed could save his company—the e-cigarette, a product with all the addictive upside of the original without the same apparent health risks and bad press. Meanwhile, in Silicon Valley, Adam Bowen and James Monsees began working on a device that was meant to save lives

and destroy Big Tobacco, but they ended up baking the industry's DNA into their invention's science and marketing. Ultimately, Juul's e-cigarette was so effective and so market-dominating that it put the company on a collision course with Philip Morris and sparked one of the most explosive public health crises in recent memory. In a deeply reported account, award-winning journalist Lauren Etter tells a riveting story of greed and deception in one of the biggest botched deals in business history. Etter shows how Philip Morris's struggle to innovate left Willard desperate to acquire Juul, even as his own team sounded alarms about the startup's reliance on underage customers. And she shows how Juul's executives negotiated a lavish deal that let them pocket the lion's share of Philip Morris's \$12.8 billion investment while government regulators and furious parents mounted a campaign to hold the company's feet to the fire. *The Devil's Playbook* is the inside story of how Juul's embodiment of Silicon Valley's "move fast and break things" ethos wrought havoc on American health, and how a beleaguered tobacco company was seduced by the promise of a new generation of addicted customers. With both companies' eyes on the financial prize, neither anticipated the sudden outbreak of vaping-linked deaths that would terrorize a nation, crater Juul's value, end Willard's career, and show the costs in human life of the rush to riches—while Juul's founders, board members, and employees walked away with a windfall. *Are all Lawyers Liars?* Of course not! But some lawyers are, and others who are not lawyers use that charge to sell the unsuspecting public asset protection structures or strategies that are outright lies. Until now, no other professional has been willing to call out the frauds and cheats in this powerful industry where self-professed experts and do-it-yourself hacks wreak havoc on the innocent just wanting to protect their assets. Mark Kohler exposes the liars and tells us the truth! In *Lawyers are Liars*, Mark explains the strategies that actually work to protect our assets and uses more than 270 footnotes to do it, quoting and referencing the true experts around the country. Undoubtedly, this book will become a desktop resource for not only the average middle income American wanting to protect his or her assets, but attorneys, estate planners and financial professionals guiding their clients through this complex area of the law.

The Kremlin Playbook 2: The Enablers shows that some countries facilitate or enable Russian malign economic influence to flow through their systems and across Europe. This feeds the Kremlin's cycle of influence, weakens democratic structures in Europe, and threatens U.S. and transatlantic security.

Noted tax expert and award-winning finance author Eva Rosenberg presents one of the first – if not the first – guides to Trump's newly enacted tax plan, providing individual tax payers with a roadmap to making the most out of this historic tax reform. Part One will provide plain English overview of what's new and how it will affect individual taxpayers as well as the larger goals of tax reform. Part Two will feature nearly 300 tax tips that will provide specific instructions on how to take advantage of the new tax law. America's runaway inequality has an engine: our unjust tax system. Even as they became fabulously wealthy, the ultra-rich have had their taxes collapse to levels last seen in the 1920s. Meanwhile, working-class Americans have been asked to pay more. *The Triumph of Injustice* presents a forensic investigation into this dramatic transformation, written by two economists who revolutionized the study of inequality. Eschewing anecdotes and case studies, Emmanuel Saez and Gabriel Zucman offer a

comprehensive view of America's tax system, based on new statistics covering all taxes paid at all levels of government. Their conclusion? For the first time in more than a century, billionaires now pay lower tax rates than their secretaries. Blending history and cutting-edge economic analysis, and writing in lively and jargon-free prose, Saez and Zucman dissect the deliberate choices (and sins of indecision) that have brought us to today: the gradual exemption of capital owners; the surge of a new tax avoidance industry, and the spiral of tax competition among nations. With clarity and concision, they explain how America turned away from the most progressive tax system in history to embrace policies that only serve to compound the wealth of a few. But *The Triumph of Injustice* is much more than a laser-sharp analysis of one of the great political and intellectual failures of our time. Saez and Zucman propose a visionary, democratic, and practical reinvention of taxes, outlining reforms that can allow tax justice to triumph in today's globalized world and democracy to prevail over concentrated wealth. A pioneering companion website allows anyone to evaluate proposals made by the authors, and to develop their own alternative tax reform at taxjusticenow.org.

The Class Action Playbook is a unique and strategic "how to" guide for practitioners seeking to bring or defend a class action.

Long-listed for the National Book Award in Nonfiction From the award-winning, New York Times bestselling author of *White Rage*, the startling--and timely--history of voter suppression in America, with a foreword by Senator Dick Durbin. In her New York Times bestseller *White Rage*, Carol Anderson laid bare an insidious history of policies that have systematically impeded black progress in America, from 1865 to our combustible present. With *One Person, No Vote*, she chronicles a related history: the rollbacks to African American participation in the vote since the 2013 Supreme Court decision that eviscerated the Voting Rights Act of 1965. Known as the Shelby ruling, this decision effectively allowed districts with a demonstrated history of racial discrimination to change voting requirements without approval from the Department of Justice. Focusing on the aftermath of Shelby, Anderson follows the astonishing story of government-dictated racial discrimination unfolding before our very eyes as more and more states adopt voter suppression laws. In gripping, enlightening detail she explains how voter suppression works, from photo ID requirements to gerrymandering to poll closures. And with vivid characters, she explores the resistance: the organizing, activism, and court battles to restore the basic right to vote to all Americans as the nation gears up for the 2018 midterm elections.

The Self Directed IRA Handbook explains how investors can own alternative retirement plan assets in their IRAs. These assets typically include; real estate, private stock, IRA/LLCs, LP, LLC, private equity, hedge funds, private placement, crowdfunding, and precious metals. The Handbook clearly explains the prohibited transaction rules, investment structures, common self directed IRA investment assets, and SDIRA tax pitfalls (UBIT & UDFI tax). The Handbook goes beyond the basics of self directed IRAs and includes extensive FAQs after each chapter, and nearly 100 citations to

cases, statutes, rulings, and opinions from the Courts, the IRS, and the DOL. Its author, Mat Sorensen, is an experienced attorney who has advised clients with IRAs at every major self directed IRA custodian, and who speaks frequently at industry associations and before professional groups on self directed IRA topics. Mat regularly advises clients on the prohibited transaction rules, on IRA/LLC structures, on real estate and private company investments, and on UBIT and UDFI taxes. Mat has also successfully represented self directed IRA owners before the IRS Appeals Office and the U.S. Tax Court. To view testimonials for the book, and for additional self directed IRA resources, please visit the author's site at www.sdirahandbook.com

Guides readers on the path to financial freedom, discussing how to not only weather but gain from fluctuations in the stock market, how to get more out of a 401k, and how to avoid paying hidden fees.

Known for his candid works, *Lawyers Are Liars*, *What Your CPA Isn't Telling You* and *The Business Owner's Guide to Financial Freedom*, trusted advisor, CPA, and attorney Mark Kohler delivers again, giving conflicted business owners the go-to guide for confidently approaching legal and tax issues fundamental to protecting their business and themselves. Leveraging popular case studies, Kohler presents easy-to-grasp points supported by assessment quizzes, checklist, chapter summaries, and more.

'A timely and cogent reminder that history never ends and is about to be made' - Tim Marshall, author of *Prisoners of Geography* With the world already struggling to contain conflicts on several continents, with security and defence expenditure under huge pressure, it's time to think the unthinkable and explore what might happen. As former soldiers now working in defence strategy and conflict resolution, Paul Cornish and Kingsley Donaldson are perfectly qualified to guide us through a credible and utterly convincing 20/20 vision of the year 2020, from cyber security to weapons technology, from geopolitics to undercover operations. This book is of global importance, offering both analysis and creative solutions - essential reading both for decision-makers and everyone who simply wants to understand our future. **TAKE CONTROL OF YOUR FINANCIAL FUTURE** Tailored for small business owners and entrepreneur like yourself who are looking for long-term financial planning and wealth management, *The Business Owner's Guide to Financial Freedom* reveals the secrets behind successfully investing in your business while bypassing Wall Street-influenced financial planners. Attorney and CPA Mark J. Kohler and expert financial planner Randall A. Luebke deliver a guide catered to your entrepreneurial journey as they teach you how to create assets that provide income so work is no longer a requirement, identify money and tax-saving strategies, and address business succession plans to help you transition into the investment phase of business ownership. Learn how to: Pinpoint the dollar value of your business with a step-by-step formula Eliminate and avoid bad debt while leveraging your good debt Uncover investment strategies Wall Street won't

tell you Achieve long-term goals with the 4x4 Financial Independence Plan Find an advisor willing to look out for your best interests Super-charge your 401(k) and leverage your insurance to get rich Create the best exit strategy for you, your business, and your family Avoid the most common mistakes in real estate investment Protect your hard-earned assets from security threats ready to strike You can't predict the future, but you can plan for it. So if you're ready to stop treating your business like your only asset and want to start making it your most valuable legacy, this book is for you! Tax-Free Wealth is about tax planning concepts. It's about how to use your country's tax laws to your benefit. In this book, Tom Wheelwright will tell you how the tax laws work. And how they are designed to reduce your taxes, not to increase your taxes. Once you understand this basic principle, you no longer need to be afraid of the tax laws. They are there to help you and your business—not to hinder you. Once you understand the basic principles of tax reduction, you can begin, immediately, reducing your taxes. Eventually, you may even be able to legally eliminate your income taxes and drastically reduce your other taxes. Once you do that, you can live a life of Tax-Free Wealth.

The Tax and Legal Playbook: Strategies that Save You Time and Money CPA and Attorney Mark J. Kohler answers the leading tax and legal questions facing small business owners, across all stages of business, and delivers a comprehensive playbook of clear-cut truths, thought-provoking advice, and underutilized solutions to save you time, money, and heartache. You can read this book straight through or as a reference guide—reading the chapters as needed to answer the questions as they arise. You'll come away wiser and better equipped to make the best decisions for your business, your family, and yourself. Covers:

- Underutilized tax and legal strategies that can save you thousands
- Picking the right legal entity for your business
- Common legal scams and deceptions to avoid
- Protecting your assets and planning for retirement
- Issues are illustrated with entertaining, real-world examples

Darren Weeks is Canada's most prominent financial educator. He is the Founder of the Fast Track Group of Companies, an acclaimed solutions-based financial literacy firm and one of the nation's fastest-growing companies. For nearly a decade and a half, Darren has spoken to hundreds of thousands of people across North America, Europe and Latin America about how to become financially independent. He is an advocate of learning how to create wealth through business and investment, and believes that this vital knowledge is lacking from traditional education. In fact, in every country that he has spoken Darren has seen that schools do not teach their students to manage money. Darren has made it his mission to fill that void by providing financial education to people across the world. He went from an average middle-class upbringing to raising hundreds of millions of dollars in investor capital, owning nearly 5,000 real estate properties, millions of dollars in energy assets and acquiring two cruise ship terminals in the Caribbean. All of this was accomplished by educating himself on how to do it and then taking action. There is no greater expert on the art of raising capital from investors and no person more committed to sharing this information than Darren Weeks.

"And sometime, at some point, do something for your country." That quote from Pulitzer Prize-winning historian David McCullough resonated so deeply with Trek Bicycle President John Burke that he set out to write a book laying out his vision for the country, an America that can once again be a shining city on a hill. Burke says it's time to cut through the political fog and deal with the facts: The U.S. is facing serious, long-term problems, and politicians in Washington, D.C. are ignoring them. These critical issues can be resolved, he says, with the

"This book changed the way I saw my taxes and my financial future." Woody Woodward, filmmaker, author, success Strategist Includes Tax Planning Resource Kit—Access templates, checklists, charts, and videos for additional support!

President Donald J. Trump lays out his professional and personal worldview in this classic work—a firsthand account of the rise of America's foremost deal-maker. "I like thinking big. I always have. To me it's very simple: If you're going to be thinking anyway, you might as well think big."—Donald J. Trump Here is Trump in action—how he runs his organization and how he runs his life—as he meets the people he needs to meet, chats with family and friends, clashes with enemies, and challenges conventional thinking. But even a maverick plays by rules, and Trump has formulated time-tested guidelines for success. He isolates the common elements in his greatest accomplishments; he shatters myths; he names names, spells out the zeros, and fully reveals the deal-maker's art. And throughout, Trump talks—really talks—about how he does it. Trump: The Art of the Deal is an unguarded look at the mind of a brilliant entrepreneur—the ultimate read for anyone interested in the man behind the spotlight. Praise for Trump: The Art of the Deal "Trump makes one believe for a moment in the American dream again."—The New York Times "Donald Trump is a deal maker. He is a deal maker the way lions are carnivores and water is wet."—Chicago Tribune "Fascinating . . . wholly absorbing . . . conveys Trump's larger-than-life demeanor so vibrantly that the reader's attention is instantly and fully claimed."—Boston Herald "A chatty, generous, chutzpa-filled autobiography."—New York Post

An urgent exposé of the mental health crisis in our courts, jails, and prisons America has made mental illness a crime. Jails in New York, Los Angeles, and Chicago each house more people with mental illnesses than any hospital. As many as half of all people in America's jails and prisons have a psychiatric disorder. One in four fatal police shootings involves a person with such disorders. In this revelatory book, journalist Alisa Roth goes deep inside the criminal justice system to show how and why it has become a warehouse where inmates are denied proper treatment, abused, and punished in ways that make them sicker. Through intimate stories of people in the system and those trying to fix it, Roth reveals the hidden forces behind this crisis and suggests how a fairer and more humane approach might look. *Insane* is a galvanizing wake-up call for criminal justice reformers and anyone concerned about the plight of our most vulnerable.

“Blood-boiling...with quippy analysis...Taub proposes straightforward fixes and ways everyday people can get involved in taking white-collar criminals to task.”—San Francisco Chronicle How ordinary Americans suffer when the rich and powerful use tax dodges or break the law to get richer and more powerful—and how we can stop it. There is an elite crime spree happening in America, and the privileged perps are getting away with it. Selling loose cigarettes on a city sidewalk can lead to a choke-hold arrest, and death, if you are not among the top 1%. But if you're rich and commit mail, wire, or bank fraud, embezzle pension funds, lie in court, obstruct justice, bribe a public official, launder money, or cheat on your taxes, you're likely to get off scot-free (or even win an election). When caught and convicted, such as for bribing their kids' way into college, high-class criminals make brief stops in minimum security "Club Fed" camps. Operate the scam from the executive suite of a giant corporation, and you can prosper with impunity. Consider Wells Fargo & Co. Pressured by management, employees at the bank opened more than three million bank and credit card accounts without customer consent, and charged late fees and penalties to account holders. When CEO John Stumpf resigned in "shame," the board of directors granted him a \$134 million golden parachute. This is not victimless crime. *Big Dirty Money* details the scandalously common and concrete ways that ordinary Americans suffer when the well-heeled use white collar crime to gain and sustain wealth, social status, and political influence. Profiteers caused the mortgage meltdown and the prescription opioid crisis, they've evaded taxes and deprived communities of public funds for education, public health, and infrastructure. Taub goes beyond the headlines (of which there is no shortage) to track how we got here (essentially a post-Enron failure of prosecutorial muscle, the growth of "too big to jail" syndrome, and a developing implicit immunity of the upper class) and pose solutions that can help catch and convict offenders.
