Lists significant international films, with brief plot summaries, critical analyses, and listings of producers, directors, and actors

Hollywood film scores underwent a supersonic transformation from the 1950s through the 1970s. This genre-by-genre overview of film and television soundtrack music covers a period of tremendous artistic and commercial development in the medium. Film and television composers bypassed the classical tradition favored by earlier screen composers to experiment with jazz, rock, funk and avant-garde styles. This bold approach brought a rich variety to film and television productions that often took on a life of its own through records and CDs. From Bernard Herrmann to Ennio Morricone, the composers of the “Silver Age” changed the way movie music was made, used, and heard. The book contains more than 100 promotional film stills and soundtrack cover art images.

From Marie Phillips, hailed by the Guardian Unlimited website as a “hot author” destined to “break through” in 2007, comes a highly entertaining novel set in North London, where the Greek gods have been living in obscurity since the seventeenth century. Being immortal isn’t all it’s cracked up to be. Life’s hard for a Greek god in the twenty-first century: nobody believes in you any more, even your own family doesn’t respect you, and you’re stuck in a dilapidated hovel in North London with too many siblings and not enough hot water. But for Artemis (goddess of hunting, professional dog walker), Aphrodite (goddess of beauty, telephone sex operator) and Apollo (god of the sun, TV psychic) there’s no

way out... until a meek cleaner and her would-be boyfriend come into their lives and turn the world upside down. Gods Behaving Badly is that rare thing, a charming, funny, utterly original novel that satisfies the head and the heart.

"Between 1945 and 1975, in both France and Greece, literature provided the aesthetic criteria, cultural prestige and institutional basis for what aspired to be a higher form of popular song and the authentic representative of a national popular music. Published poems were set to popular music, while critical discourse celebrated some songwriters not only for being 'as good as poets' but for being 'singing poets' in their own right. This challenging and stimulating study is the first to chart the parallel cultural processes in the two countries from a comparative perspective. Bringing together cultural studies with literary criticism, it offers new angles on the work of Georges Brassens, Leo Ferre, Jacques Brel, Mikis Theodorakis, Manos Hadjidakis and Dionysis Savvopoulos."

Zorba the Buddha is a selection made from Osho's discourses on the synthesis of materialism and spiritualism, the Zorba and the Buddha

Those seeking to learn about this vibrant and exciting music were forced to seek out individual essays, often published in obscure or ephemeral sources. This volume provides a singular platform for understanding the scope, practice, and development of Greek music in America through essays and profiles written by principal scholars in the field. Greece developed a rich variety of traditional, popular, and art music that diasporic Greeks brought with them to America. In Greek American communities, music was and continues to be an essential component of most social activities. Music links the past to the present, the distant to the near, and bonds the community with an embrace of memories and narrative. From 1896 to 1942, more than a thousand Greek recordings in many genres were made in the United States, and thousands more have appeared since then. These encompass not only Greek traditional music from all regions, but also emerging urban genres, stylistic changes, and new songs of social commentary. Greek Music in America includes essays on all of these topics as well as history and genre, places and venues, the recording business, and profiles of individual musicians. This book is required reading for anyone

who cares about Greek music in America, whether scholar, fan, or performer.

The contributors to the present volume, in espousing and extending the programme of such writers as Edward Said, Benedict Anderson, Homi Bhabha, and Gayatri Spivak, lay bare the genealogy of 'writing' empire (thereby, in a sense, 'un-writing' it). One focus is the Caribbean: the retrograde agenda of francophone créolité; the re-writing of empire in the postmodern disengagement of Edouard Glissant; resistance to post-colonial allegiances, and the dissolving of binary categories, in contemporary West Indian writing. Essays on India, Malaysia, and Indonesia explore various aspects of cultural self-understanding in Asia: un-writing high culture through hybrid 'shopping' among Western styles; the use of indigenous oral forms to counter Western hegemony; romantic and anti-romantic attitudes towards empire and the land. A shift to Africa brings a study of Nadine Gordimer's feminist un-writing of Hemingway's masculinist colonising narrative, a searching analysis of Soyinka's restoration of ancient syncretic elements in his West African re-visions of Greek tragedy, changing evaluations of the validity of European civilization in André Gide's representations of Africa, and tensions of linguistic allegiance in Maghreb literature. North America, finally, is brought back into the imperial fold through discussions of Melville's re-writing of travel and captivity narratives to critique the mission of American empire, Leslie Marmon Silko's re-territorialization of expropriated Native American oral traditions, and Timothy Findley's representation of Canada's troubled involvement with its three shaping empires (French, British, American).

This nicely illustrated reference for junior high and high school students offers 20-page profiles of 93 of the world's most influential writers of the twentieth century. Arranged alphabetically, each profile provides facts about the writer's life and works as well as a commentary on his or her significance, discussion of political and social events that occurred during his or her lifetime, a reader's guide to major works, and events, beliefs or traditions that inspired the writer's works. Most people dream about visiting many of the exotic locations and cultures they have seen in films or on TV. We often have a desire to actually visit these places and find out first-hand how others live out their day-to-day lives. Too often these dreams are out-of-sight for the average person. Unfortunately these opportunities are rare and usually they are fulfilled by a 1-2 week package tour of several famous locations. Very few people have the luxury of sufficient free time to travel among the common people of any land and learn directly from them. When I decided to travel to many parts of the world I was at the enviable stage of life where I had finished college, completed my military commitment and was still unmarried. Thus, I planned to spend a significant amount of time in as many countries as I could. My intention was to meet average citizens and live their lifestyle while with them. Of course, this would require learning their language to a conversational degree for which we residents of the USA have a poor reputation. High school French and college German gave me a start and I would learn other languages as I went thanks to the patience of so many new friends. This

approach led me to being welcomed into numerous families everywhere I went. Thus, did I have the extraordinary privilege of becoming part of so many families wherein I would learn their culture from the most valid source. When I now think back to this incredible journey I am humbled by the open hospitality of so many new friends who often had little to spare, but shared it with joy and pleasure. For those who might not have the privilege that I had, I wish to attempt to convey the wonder of this world journey through this book. I invite the reader to share my varied adventures with our fellow citizens of this beautiful planet. Enjoy.

"DAZZLING." --Time "[THEROUX'S] WORK IS DISTINGUISHED BY A SPLENDID EYE FOR DETAIL AND THE TELLING GESTURE; a storyteller's sense of pacing and gift for granting closure to the most subtle progression of events; and the graceful use of language. . . . We are delighted, along with Theroux, by the politeness of the Turks, amazed by the mountainous highlands in Syria, touched by the gesture of an Albanian waitress who will not let him pay for his modest meal. . . . The Pillars of Hercules [is] engrossing and enlightening from start (a damning account of tourists annoying the apes of Gibraltar) to finish (an utterly captivating visit with Paul Bowles in Tangier, worth the price of the book all by itself)." --Chicago Tribune "ENTERTAINING READING . . . WHEN YOU READ THEROUX, YOU'RE TRULY ON A TRIP." --The Boston Sunday Globe "HIS PICARESQUE NARRATIVE IS STUDDERED WITH SCENES THAT STICK IN THE MIND. He looks at strangers with a novelist's eye, and his portraits are pleasantly tinged with malice." --The Washington Post Book World "THEROUX AT HIS BEST . . . An armchair trip with Theroux is sometimes dark, but always a delight." --Playboy "AS SATISFYING AS A GLASS OF COOL WINE ON A DUSTY CALABRIAN AFTERNOON . . . With his effortless writing style, observant eye, and take-no-prisoners approach, Theroux is in top form chronicling this 18-month circuit of the Mediterranean." --Kirkus Reviews (starred review)

This classic work of creative criticism from German philosopher Friedrich Nietzsche argues that ancient Greek drama

represents the highest form of art ever produced. In the first section of the book, Nietzsche presents an in-depth analysis of Athenian tragedy and its many merits. In the second section, Nietzsche contrasts the refinement of classical tragedy with what he regards as the cultural wasteland of the nineteenth-century.

For fans of Hilary Mantel's *The Mirror and the Light* comes an historical espionage novel with a contemporary edge from Michelle Butler Hallett. The time is 1937. The place: the Basque Country, embroiled in the Spanish Civil War. Polyglot and British intelligence agent Temerity West encounters Kostya Nikto, a Soviet secret police agent. Kostya has been dispatched to assassinate a doctor as part of the suppression of a rogue communist faction. When Kostya finds his victim in the company of Temerity, she expects Kostya to execute her -- instead, he spares her. Several weeks later, Temerity is reassigned to Moscow. When she is arrested by the secret police, she once again encounters Kostya. His judgement impaired by pain, morphine, and alcohol, he extricates her from a dangerous situation and takes her to his flat. In the morning, they both awaken to the realities of what Kostya has done. Although Kostya wants to keep Temerity safe, the cost will be high. And Temerity must decide where her loyalties lie. Writing about violence with an unusual grace, Michelle Butler Hallett tells a story of complicity, love, tyranny, and identity. *Constant Nobody* is a thrilling novel that asks how far an individual will go to protect another -- whether out of love or fear.

In *Sailing the Wine-Dark Sea*, his fourth volume to explore "the hinges of history," Thomas Cahill escorts the reader on another

entertaining—and historically unassailable—journey through the landmarks of art and bloodshed that defined Greek culture nearly three millennia ago. In the city-states of Athens and Sparta and throughout the Greek islands, honors could be won in making love and war, and lives were rife with contradictions. By developing the alphabet, the Greeks empowered the reader, demystified experience, and opened the way for civil discussion and experimentation—yet they kept slaves. The glorious verses of the Iliad recount a conflict in which rage and outrage spur men to action and suggest that their “bellicose society of gleaming metals and rattling weapons” is not so very distant from more recent campaigns of “shock and awe.” And, centuries before Zorba, Greece was a land where music, dance, and freely flowing wine were essential to the high life. Granting equal time to the sacred and the profane, Cahill rivets our attention to the legacies of an ancient and enduring worldview. **BONUS MATERIAL:** This ebook edition includes an excerpt from Thomas Cahill's *Heretics and Heroes*.

In this second edition of *Orchestral “Pops” Music: A Handbook*, Lucy Manning brings forward to the present her remarkable compendium of information about this form of orchestral music. Since the appearance of the first edition in 2008, this work has proven critical to successful “pops” concert programming. With changes in publishers and agents, the discontinuation of the publication of certain original material or, worst of all, presses going out of business, music directors, orchestra conductors, and professional instrumentalists face formidable challenges in tracking down accurate information about this vast repertoire. This revised handbook alleviates the time-consuming task of researching these changes by offering a list of works for orchestral “pops” concerts that is comprehensive, informative, and current. Manning’s emphasis on clarity and accuracy gives users an indispensable tool for gathering vital information on the style, instrumentation, and availability of the repertoire listed, as well as notes on its performance. The user-friendly appendices include expanded instrumentation choices, easy-to-find durations, and handy title cross-references. In addition to corrections and updates, this new edition of *Orchestral “Pops” Music* includes at least 1,000 new title listings. *Orchestral “Pops” Music: A Handbook* is the ideal tool for working conductors and orchestral librarians, as well as music program directors at colleges, conservatories, and orchestras.

Theme park studies is a growing field in social and cultural studies. Nonetheless, until now little attention has been dedicated to the choice of the themes represented in the parks and the strategies of their representation. This is particularly interesting when the theme is a historical one, for example ancient Greece. Which elements of classical Greece find their way into a theme park and how are they chosen and represented? What is the "entertainment" element in ancient Greek history, culture and myth, which allows its presence in commercial structures aiming to people's fun? How does the representation of Greece change against different cultural backgrounds, e.g. in different European countries, in the USA, in China? This book frames a discussion of these representations within the current debates about immersive spaces, uses of history and postmodern aesthetics, and analyses how ancient Greece has been represented and made "enjoyable" in seven different theme parks across the world, providing an original and ground-breaking contribution to theme park studies and classical reception.

Explores film music's role in the concert repertoire, highlighting how the Boston Pops under John Williams pioneered its inclusion. The book interrogates the construction of modern Greek identity in Theodorakis' music. After examining the composer's musical and political life, the author focuses on characteristic works of varying genres discussing Theodorakis' unique re-interpretation of modern Greek identity through them. In the words of Cornell University professor Gail Holst-Warfat, this book is an important contribution to the understanding of Theodorakis' music, a subject which has been largely neglected by musicologists in his own country, and which deserves to be better known in all its brilliance and abundance by music lovers all over the world.
